SUBJECT: Project No. 35.246, "Interim Study of USSR Shipyards in Economic Region IIA and IIB" and Project No. 35.247, "Interim Study of USSR Shipyards - Region III"

1. St/PC has called to our attention that it is possible to enter reports in its records as Research Aids (manuscript form). In view of the fact that the attached reports seem to fall into that category we recommend that they be recorded as RA's. The designation of these particular reports seems appropriate inasmuch as the interim shipyard studies do not fulfill the requirements of an IP. This fact was not taken into account in my earlier discussions with [REDACTED]

2. If you have any questions as to the character of an IP we would be glad to elucidate.

3. Two copies of these reports will be retained in St/PC files where they will be available to other agencies for reference.
